PROFESSIONAL PROFILE

From a passion for web technologies I started learning QA Automation Testing and Front-end Development few months ago. By studding and applying what I learned, I managed to create a few personal projects that you can find on my GitHub profile.

I am seeking an opportunity to expand my knowledge and skills while working for a leading technology company. Please take into consideration my resume for the "Software Engineer" job opening you currently have. For any other information, do not hesitate to contact me.

EDUCATION

Physics UNIVERSITY / 2016 – 2018

Master Degree in Environmental Physics and Eco-friendly Materials

My degree paper had the title " Comparison of the Nuvel-1A and Morvel models regarding the modeling of slip vectors for the Nazca plate".

Physics UNIVERSITY / 2013 – 2016

Bachelor Degree in Physics

My degree paper had the title "Radial variation of elastic coefficients inside the Earth".

WORK EXPERIENCE

National Institute for Earth Physics / AUGUST 2019 – November 2023

Research Assistant

My responsibilities included monitoring seismic activities and working on writing articles about studies of several seismic areas in Romania based on experimental data which was extracted and analyzed using various tools like SAC, GMT and programming languages like Python, Linux, Matlab.

AWARDS/PAPERS/COURSES

Udemy Course QA

I received a certificate of completion for finishing a 13 hours course from Udemy "Manual and automatic testing" taught by Radu Popescu where I learned to use tools for testing like jMeter, Postman, Cypress and Qase but I also learned about project management tools like Jira.
